

4 WOMEN OF DESIGN-LOUISE CUTTING CLASS DESCRIPTIONS

Saturday

Tips & Techniques Day

Details tell the story when it comes to fashion sewing. Gain complete confidence in your abilities—both technical and artistic for all parts of your garments. Discover notions that help you become unerringly accurate. Learn trimming and shaping secrets for smooth, professional results. You'll execute each technique and create a workbook of samples, from lump free collars, facings, bias bindings, small miters, matching stripes (or plaids) in a new way, accurate edge and top stitching, setting a sleeve without gathering. The bonus: discussions taking place throughout the day will add to your sewing ambition and fashion sense.

Sunday

Farewell to Arms 'Almost Bias Skirt'

When was the last time you were able to wear a flattering skirt that skimmed over all the lumps and bumps that somehow have shown up on our bodies? The 'Almost Bias Skirt' is one of those garments that you will make over and over for your everyday, weekend and in evening fabrics for special occasion dressing. The four gore, bulk-free forward pockets and soft cut on elastic waist will become a standard in your wardrobe. You will be measured, pattern altered, cut, sew and wear your skirt to the evening's event!

Monday

One-Seam Pants© Just for YOU

One-Seam Pants© are in just about every designer's collection. Thanks to a fabulous fit and the secrets Louise has uncovered from studying designer garments, these pants will definitely flatter your figure. With the chart that is included, you will be measured, the pattern altered to fit just your shape and size. You will be ready to cut out and start sewing your first of many pairs of One-Seam Pants©. Throughout the day Louise will lecture about the many variations that can be added to your future pairs of One-Seam Pants© she has found while 'inspecting' the various designers.
