You will need a sewing machine that has been cleaned and oiled and is in good condition. If your machine also embroiders and has a 9mm throat plate, you may want to invest in a 5mm-wide throat plate. If you have the even feed feature on your machine, engage it. If not, add a walking foot, if possible. We recommend a serger for seam finishes.

Purchase the Pattern

Purchase the digital Metro Skirt pattern. You can now select for us to print the pattern for you from our in-house printing service.

Fabric Preparation

Pre-wash a small sample of the fabric. If you're happy with the result, wash your yardage. Silk noil will soften and increase its texture when washed.

Sizing:

This skirt is a long skirt and can be shortened using the lengthen and shorten lines. It runs true to size in the hips. Be sure to check the length of your elastic by measuring your waist and subtracting 4" which we mention in the video.

Notes:

In the addition the templates as outlined in the instructions, watch the Savvy Sewing Series video on slipstitching if you are not sure how to slipstitch your waistband openings closed.

Video Access

The Online Workshop will be posted to your course page on April 5th. We recommend watching the video for details in sewing each technique of this garment.
